Q1

Did the learning group meet your expectations?

Please explain:

It was quite interesting and fruitful and we advance well in the limited time! I think that maybe I was a bit ambitious and thought that maybe we could get a bit further, but I now I do not see how that we be really feasible.

Q2

Consider the overall process of this learning group, please tell us how well we did, what went well and what we could have done better.

Generally, how well we did

very well

What went well

the organization and preparation before hand, the dyanmic meetings

What we could have done better

I think that it could be more productive to have just 1 meeting with all the participants rather than 2

Q3

Please rank the different tools used during this learning group?

Survey Monkey

Very useful

PollEverywhere

Q5

Which methods/approaches did you find most interesting and useful?

Case studies	Somewhat useful
References/resources in Google Folders	Useful
Breakout groups in Zoom	Very useful
Presentations,	Very useful
Q&A and Plenary Discussion	Very useful
Email contacts and information	Very useful
Convening	Very useful
Working Group	Very useful
Please comment on your rating of the approaches used.:	Might have been helpful to select a relevant article from the resources to read prior to a convening. It felt overwhelming having so many resources and not knowing how to focus time reading them. Could also have a discussion group focused just solely on selected articles. This may have been helpful at the beginning. Also the idea of what we were doing in the beginning was fuzzy because of the purpose of the initiative, so I was not quite sure what to be looking for in the readings. This was more clear when reading for the results chain

Q6
